SHREDDING, GRINDING & BRIQUETTING EQUIPMENT // ISSUE 11

Welcome to another issue of CRUSHING NEWS, WEIMA's e-newsletter. For over 20 years, WEIMA has been a market leader in size reduction technology. When it comes to shredding, grinding and briquetting, we're known for building tough, reliable equipment that handles whatever recyclable material you throw in it.

In this issue we'd like to extend a special invitation to join us at this year's NAID Conference in New Orleans April 1-3. See below for all the details. We also thought you may be interested to hear about the success Scientific Game is enjoying with their new WEIMA briquette press.

Join Us in New Orleans April 1-3 for the 2009 NAID Conference

2009 Annual  
Conference

Join WEIMA in New Orleans for the NAID Conference April 1-3, 2009. The theme for this year's conference is The Big Easy of Security. We'll be manning booths 703 and 705 at the Hilton New Orleans Riverside. This conference presents a great opportunity to learn about the latest trends in document destruction and get a closer look at WEIMA's ECO 1.5 shredder & TH514 briquette press which will be on display. New Orleans has a lot of history and culture to enjoy along with great music and restaurants. For complete details go the [NAID web site](#).

Scientific Games Clears the Air with WEIMA Briquette Press

Scientific Games, a global provider of gaming solutions to the multi-billion-dollar lottery and pari-mutuel racing industries, has cleared the air at their Alpharetta, GA production facility thanks to the installation of a WEIMA briquette press. The company use to collect paper dust in bags that often broke and caused a large mess. Now with WEIMA's briquette press, which works in tandem with the dust collector, compact pucks are created and deposited in a box that can be easily and cleanly removed. See all of WEIMA's machinery in action [here](#).
